Capt Mishra

Synergy Marine Group, a leading independent provider of ship management and ancillary services to ship owners around the world, conducted its senior officers' seminar at the Taj Gateway Hotel, in Chennai on July 25 and 26.

This is a new initiative of the group, wherein a

series of such seminars will be held every year across India to reach out to senior staff when they are ashore, and promote QHSE excellence, which the group is at the helm of.

The seminar was centred around 'iSteer Synergy' — which encompasses the seven core values of the group, and how these core values have been

leading lights for the group and have contributed in the phenomenal success Synergy has seen under the leadership of its founding CEO — Captain Rajesh Unni. The event commenced with the opening and welcome speech by Capt Anshul Rajvanshi.
